SUMMARY

Java Full Stack Developer with hands-on experience building enterprise web applications using **Liferay, Spring Boot, React.js, and SQL**. Contributed to a live workforce tracking platform during internship at **7Span**, developing backend modules, APIs, and frontend components within the Liferay ecosystem. Experienced in **Liferay role management, REST API development, and React integration**, with a strong focus on scalable enterprise application development.

EXPERIENCE

Java Full Stack Developer Intern October 2025 – March 2026
7Span Pvt. Ltd — Ahmedabad, Gujarat Ahmedabad, Gujarat

- Contributed to **Zeveal**, a workforce tracking platform used to monitor remote employee productivity.
- Developed backend modules using **Liferay Service Builder**, defining entities and finder methods for employees, departments, and work logs.
- Built APIs using **Liferay REST Builder** for frontend and system integrations.
- Developed and integrated **React.js components** within the Liferay environment for dashboards and tracking features.
- Implemented **Liferay role and permission management** for role-based system access.

PROJECTS

Zeveal | Remote Workforce Tracking Platform Enterprise Project

- Tech Stack: **Liferay Portal, Java, React.js, SQL**
- Contributed to the development of **Zeveal**, an enterprise application designed to track and manage remote employee work activities within an organization.
- Built backend modules and APIs using **Liferay Service Builder and REST Builder (OAuth, CORS, User Management)**, managing entities including Employee, Department, Designation, Work Logs, Notifications, and System Configuration.
- Built and integrated **React.js components** within the Liferay environment to create user interfaces for dashboards, employee tracking, and activity monitoring.
- Worked with **Liferay role and permission management** to implement role-based access control for different user types within the system.
- Developed features to track **employee work sessions, productivity metrics, idle time, and break logs** to monitor remote work efficiency.
- Implemented **notification and event logging functionality** to track system activities and user actions.

TECHNICAL SKILLS

Backend Technologies: Java, Liferay Portal, Spring Boot REST APIs

Frontend Technologies: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, ShadCN, MUI.

Databases and Caching: Postgres, MYSQL, MongoDB.

Enterprise Development: Liferay Module Development, Role & Permission Management

Development Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code, Antigravity

Core Concepts: Object-Oriented Programming (OOP), RESTful Architecture, Database Design, Debugging

EDUCATION

Bachelor of Computer Engineering
LDRP-ITR(KSV)

2022– 2026
Gandhinagar, Gujarat
